Custom MMIC Presented with Gold Supplier Excellence Honors from BAE Systems

Chelmsford, MA – April 11, 2019 – Custom MMIC, (www.CustomMMIC.com), a leading designer and manufacturer of high performance monolithic microwave integrated circuits (MMICs), is honored to be the only semiconductor supplier to receive BAE Systems' distinguished GOLD Supplier award for 2018. As part of their "Partner 2 Win" Supplier Program BAE Systems conducts a comprehensive annual review of all their key suppliers and brings the top performing suppliers together for an evening of appreciation and to acknowledge their outstanding support over the previous year.

Dave Folding VP of Operations and Erik Sauve Director of Quality attended the Partner 2 Win Supplier Symposium ceremony held on April 2, 2019 and accepted the award on behalf of the Custom MMIC team. *"We are both honored and proud to have been selected to receive this prestigious award from BAE Systems. This customer acknowledgement reaffirms Custom MMICs commitment to providing the best products and services possible to our valued customers and partners now and for the future," said Dave Folding.*

Since 2006 Custom MMIC has been recognized as a top-tier quality supplier of high performance RF and Microwave products earning us numerous industry and top supplier excellence awards like the GOLD Supplier award from BAE. We continue to exceed our customers expectations and strive to challenge the boundaries of RF and Microwave engineering design.
